Stephanie - I'm very happy to help set something up. As I told Erin, I'm sorry the ball got dropped on your February request. Thanks much for the list of questions. I will forward to ICF to get them started on responses. It looks like you have several water quality questions, so perhaps we should set up our first meeting to talk about WQ specifically. I'm at ACWA most of next week, so would the week of May 12th work? What's the easiest way to coordinate schedules? Do you want to send us a list of days/times that work for you, then we'll go from there? Alternatively, I could have ICF work with Teresa Olson to schedule something. Let me know what's convenient for you.

Thanks, Cassandra

Hi Cassandra,

Can you help us set something up with ICF to go over some questions we have on the EIS? I have attached a list of the questions, which is current. We might have a couple more questions to add to this but I thought this would help get us started.

Erin let me know that you contacted her and I apologize for taking a couple days to get back to you.

Please feel free to call or email me if you have any questions. Other feds would be invited.

Hi Teresa,

Regarding my voicemail, I am forwarding a message we sent to Steve Centerwall at ICF a long time ago with a list of questions we had on the BDCP EIS. We never did get answers on these and we have a couple more to add to this list for Ch 11.

This email isn't very detailed, but it accompanied a phone conversation I had with him expressing our desire to have a meeting. Included in this chain is a note from Cassandra at DWR in which Cassandra gave us the green light to contact Steve directly.

We would very much like to meet with ICF. Fed agencies are invited, but this would be a different meeting than the one that is occurring on May 2.

We would also like to meet immediately, given that we have finished our NEPA comments and will start shepherding them through our management chains. We would like to double and triple check through our list to make sure that we are not missing anything.

Please contact me and let me know how best to set this meeting up.

Thank you,

Stephanie

Hi Steve,

Erin and I have compiled 18 questions on Ch 3-8. These questions fall under the category:  
"Where in the BDCP?"

I am hoping that these questions can be easily answered. We pared this list down quite extensively by cross-referencing with the HCP and the Appendices but these are our remaining questions.

Please call me if you want to discuss.

**Subject:** RE: Hard copies

Hi Cassandra,

Thanks for forwarding the request for a hard copy in Sac for me and for Steven's name and the offer for assistance in our WQ review. I appreciate it.

Stephanie and I are meeting next week to discuss her strategy for getting the document reviewed. It would be best to follow up with you on a date for presentation(s) after I've had a chance to talk with Stephanie about our timeline for review. I think it would be most helpful to schedule discussions/presentations for a time after we've read chapters so that we can talk about questions. Is the offer for presentations restricted to the WQ chapter or could we perhaps get some assistance with other chapters as well?

Thanks again and good luck in the coming weeks. Lots going on!

Erin – I forwarded this to our public outreach team and they have updated the list.

On another note, I wanted to follow-up with you about providing a presentation (or presentations) on the water quality analyses in the EIR/S. When would you be interested in the presentation? The draft comes out on Dec 13<sup>th</sup>, so we could shoot for something right afterwards to help you with the document review. Let me know what you think will work best for you.

Also, we promised you a list of contact people for the document. Steve Centerwall thought it would be most expeditious for you to just call him directly and he will put you in contact with the correct person. Steve's contact information is below.

Thanks much, Cassandra

Hi Cassandra,

I will be the second person at EPA using the hard copy. Could we have one hard copy delivered to EPA in SF and one delivered to 650 Capitol?

Thanks and I hope you are well,

Erin
